

# JUDITH'S PICKS

By: Judith Conroy

It's an old adage, "You can't choose your relatives or neighbors." I guess I've been lucky on both counts. I have a wonderful family, and for the last six years the very best of neighbors. I live across the street from **Memorial Park Funeral Home and Cemetery**.

For years I have seen first hand the care Memorial Park provides its families. Starting as early as six o'clock in the morning, workers are on the **exquisite** grounds tending the grave sites, statuary, and mausoleum. There is a real feeling of pride and **serenity** in Memorial Park. Whether you walk the pristine paths, or stop by the curved reflecting pool and fountain; the devotion of professional groundskeepers is evident. Stone bridges and caves large enough to walk through add to the peaceful surroundings. Designs by famous artists and architects from Europe and the United States enhance the ambiance and pay homage to your loved ones.

Memorial Park is so beautiful and uplifting that photographers from all over the city come to shoot pictures of brides, babies and special occasions. Everyone experiences a subtle feeling of peace when visiting Memorial Park because reverence to life is memorialized with every step. **Contact Vickie Gillespie at (901) 767-8930, or go on line at [www.memorialparkcemetery.com](http://www.memorialparkcemetery.com).**

Everyone who is a business owner or manager knows the most time consuming, costly, and important function of their business is selecting and training the best person as an employee. There is nothing worse than investing valuable time educating an employee, only to have them fail or be dishonest. This no longer needs to be a concern. **Richard Redmont, CEO**

of **Peplemax**, implements a testing system tailored to your individual business needs. He helps you choose the correct assessments to make better hiring decisions, and manage your employees more effectively, **enhancing** productivity. With no costly computer systems or software to purchase, these assessments are completed in reasonable time. After your employees finish the testing, results are reported back to you instantaneously, regardless of physical location. Consequently, no manual grading, faxing, etc issues arise with the scoring of an assessment.

These assessments are extremely valuable in the areas of integrity, reliability, and work ethic. They will increase your sales and employee output, and help insure you are putting the best possible person in the job in which they will be effective. **Peplemax** helps reduce employee turnover and keeps your production level at the maximum. It's amazing all the high profile corporations that employ this kind of testing and now **Peplemax** makes it possible for businesses of all sizes. Call **Richard Redmont at (901) 751- 8550, or go on line to [www.peplemaximum.com](http://www.peplemaximum.com).**
